

# BLUEBIRD BLUES

Words & Music by Sherri Reese

**C** **C7**

She was here, now she's gone

**F** **C**

My little bluebird, my happy one

**Am**

What did I do, I haven't a clue

**F** **G** **C** **C7**

Without her, now I'm the one who's blue

**F** **C**

*Bluebird - come back where you belong*

**D7** **G** **G7**

*Come sit by my window - and sing your little song*

When the sky turned cloudy and gray

My fairweather friend, she flew away

Where did she go, I haven't a clue

Without her, now I'm the one who's blue

*Chorus*

**F** **C**

*I don't need a new bird - with gold or silver wings*

**D7** **G** **G7**

*All I need is my little bluebird - and the happiness she brings*

She was here, now she's gone

My little bluebird, my happy one

What can I do, I haven't a clue

Without her, now I'm the one who's blue

Without her, now I'm the one who's blue
