

PASSAGES OF TIME

Words & Music by Sunny Moser & Joe LaMay

Unreleased

A tree will grow from seed to limb
And many years will stand
A sentinel to all our lives
As we become the land
And as the generations pass
Our dreams will play their part
And the spirit of our legacy
Will fill our children's heart

Passages of time and space
Moving thru each year
Images of lives we've traced
And dreams we held so dear
And though we sing of love today
In melody in rhyme
The time will come we shall embrace
The passages of time

Rivers flow from sea to sea
And wind their way between
The mountains and the fields below
Amid the valleys green
And as it follows nature's course
Our lives will do the same
Giving life's eternal light
To the Spirits that remain
