

PRETTY LIES (*I BELIEVED YOU*)

Words & Music by Joe LaMay

Unreleased

When you looked into my eyes
And told me all your pretty lies
I believed you
I wanted to believe you

When you whispered in my ear
And said the words I longed to hear
I believed you
I wanted to believe you

*When you said please stay awhile
I should've seen right thru your smile
I was blind - I could not see
Your pretty lies had a hold on me
And I believed you*

When you put your lips on mine
And told me everything was fine
I believed you
I wanted to believe you

When you took me to your room
Neath the light of the silver moon
I believed you
I wanted to believe you

Bridge

Now where you've gone I just don't know
You left here some time ago
I believed you
I wanted to believe you

But every now and then it seems
When I see you in my dreams
I believe you
I wanted to believe you

Bridge
