

ANGEL IN YOUR EYES

Words & Music by Joe LaMay

C G Am
I found an angel in your eyes
F G
You really came through bright and clear
C G Am
It nearly took me by surprise
F G
But I cast aside all fear
Am G Am
And when the songs were done and the lights were turned down low
F G
I held you warm and near
C G Am
I knew I'd have to let you go
F G C
And I'd be wishing you were here

I've got an angel on my mind
And that's where you're gonna stay
'Cause it's been too long a time
Since I have felt this way
And if I could fly over mountains and the sky
I could make you reappear
But it's not my place to try
I'm just wishing you were here

F Ab Am F Ab C
And when I'm on this road I travel - You'll be right there in my heart

F Ab Am D7 G
Should my life start to unravel - please don't let me fall apart

I know that angels seldom stray
They walk a path that's straight and true
But if you're ever back this way
We'll be in heaven - me and you
And when the day is done and the lights are turned down low
And I feel you drawing near
Although I know it can't be so
I'm just wishing you were here
